

SEBO ET SERIES

DURABLE, RELIABLE POWERHEADS

WORKS FOR ME

01 Unique swivel neck

Ultra fast cleaning maneuverability around obstacles with a 180deg swivel. PLUS quick release adapter on wand (no tools required) for easy head interchange and above the floor cleaning.

02 Full rotating brush roller

For deep-down fibre agitation and dirt removal. Easy to replace brush roller (no tools required). Carpet and soft floor tile manufacturers recommend this method of cleaning maintenance.

03 Extraordinary material combination

Housing - Injection moulded, high-impact ABS plastic. Heavy duty adapter support, swivel neck assembly.

Made-in-Germany.

04 User friendly design

With three wheels, it glides along the floor. Has a built-in trap door for easy blockage removal and sits securely when in an upright position. A quick release foot pedal ensures rapid use.

05 Flat to floor vacuuming

These machines work when completely flat, making it easy to clean under furniture. When upright the anti-fatigue technology makes vacuuming a one pass activity.

06 SMD technology for easy operator guidance

The brush roller may be switched off for straight suction cleaning of delicate rugs and hard floors. Illuminated warning lights and a manual 4-level brush height adjustment assure optimum cleaning.

SEBO ET1

SEBO ET2

SEBO ET1

- › Brush Motor: 175 Watt
- › Revolution Speed: 2700 U/min
- › Working Width: 31 cm
- › Brush Height Setting: 4 levels
- › Brush Drive: Toothed belt with electronic overload protection

SEBO ET2

- › Brush Motor: 200 Watt
- › Revolution Speed: 2700 U/min
- › Working Width: 37 cm
- › Brush Height Setting: 4 levels
- › Brush Drive: Toothed belt with electronic overload protection

Made in Germany, SEBO power heads are recognised worldwide as the most reliable and best designed on the market. Used to increase cleaning efficiency with a back pack or canister vacuum cleaner with power outlet. Increases productivity and reduces operator fatigue.
